www.t2cglobal.com

Overview

Trident Technologies and Consulting - Global, LLC (T2C-Global) is a Woman Owned Small Business (WOSB) and Certified Woman Owned Florida Business Enterprise specializing in providing innovative global defense services and solutions.

Responsibilities

- Provide Headquarters Operations Intelligence Support specifically the ISR TPMs will directly support NSWG-10, SEAL Reconnaissance Team ONE, SEAL Reconnaissance Team TWO, and Mission Support Center as the primary focal point for NSWG10 intelligence software and hardware testing and validation requirements to include interfacing with other NSW Tactical Intelligence Collection Cell (TICC) members and WARCUM and SOCOM Programmatic and Information Assurance personnel. (1 x FTE in Coronado, CA; 1 x FTE in Virginia Beach, VA).
- Assist the Intelligence Officer by managing existing and input new equipment into TICC inventories and databases within the Accountable Property System of Record. Currently, the Defense Property Accountability System (DPAS) or other as defined.
- Support and provide guidance/recommendations to command personnel/leadership for NSW Program of Record Intelligence products.
- Provide input on equipment and software comparisons and reviews.
- Prepare/issue/maintain NSWG10 N2 deployment equipment.
- Facilitate/coordinate equipment for intelligence software courses of instruction.
- Execute duties IAW COMNAVSPECWARGRUTENINST 5200.45.
- Positions will require travel within CONUS in support of NSW exercised, certification course, technical seminars, and site visit/working groups with IC, SOF components partners, and others as defined by leadership. Travel should accommodate up to once quarterly, 7-14 days each as required. These positions may require support in field conditions.

Qualifications

Required certifications:

- **Current DoD Active TOP SECRET / SCI Eligibility**
- Must be able to meet DoD Directive 8570.01 Certification Requirements. "DoD 8570 requires two certifications for compliance, an approved IA certification based on your assigned IAT level and a Computing Environment (CE) certification based on the equipment and software you work with for your primary duties."
- Operate basic computer applications such as Microsoft Office.

- Possess strong demonstrated briefing skills.
- Must be capable of multi-tasking in a high stress, time sensitive environment.
- Previous experience in the SOF community is highly desirable.
- Possess operational and tactical level intelligence experience to include general experience in the fields of targeting, intelligence systems, and geospatial systems.
- Have proficiency in utilizing computer applications and intelligence related automation to support analytical efforts and product development. Candidates must perform at a highly proficient level on core IMINT analysis and FMV exploitation with recent, hands on experience.
- Must have good interpersonal skills and be able to effectively work, individually or as a member of a team, and take the lead on select tasks as required.
- A minimum of eight (8) years of hands-on GEOINT analytical experience within DOD or the Intelligence Community.
- Five (5) years of technical experience.
- At least two (2) years of experience within the past three years with GEOINT exploitation tools such as SOCET GXP and ArcGIS.
- At least two years of experience with GEOINT analysis, GEOINT production, intelligence architecture, intelligence databases, quality control, and training.
- Military personnel who have two years of hands-on FMV analysis experience within the SOF community automatically meet the minimum requirement.
- This position supports a U.S. Government contract; per the Executive Order 14042 issued on September 9, 2021, personnel must be fully vaccinated against COVID-19 to fill this role.

Physical Demands

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of the job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee is required to possess the fitness and conditioning required to perform ordnance-based maintenance and logistics support duties. Employees shall be physically capable of performing all maintenance and logistics duties including the ability to ascend and descend ladders; lift objects up to 86 pounds; be free of any abnormal fear of heights; stand for long periods of time; work outdoors in extreme hot and cold environments; work on waterborne platforms such as small boats; and work on small arms ranges and in an AA&E environment. Each employee meets these standards at time of employment, and these fitness standards will be sustained throughout their assignment to the contract. Each contractor employee will sign a Statement of Understanding acknowledging the above requirements to reach with hands and arms. The employee is frequently required to sit, stand and walk.

Disclaimer: The listed duties are not intended to serve as a comprehensive list of all duties performed by all employees in this classification, only a representative summary of primary duties and responsibilities. Incumbent(s) may not be required to perform all duties listed and may be required to perform additional position specific duties.

Special Conditions

- If offered employment, you will be required to submit to a background investigation.

Trident Technologies and
Consulting – Global, LLC

- Employees performing sensitive requirements must be able to pass a drug test as a condition of employment and submit to random drug testing throughout the contract performance period as per FAR 252.223-7004, Drug Free Workforce. If your position requires drug testing to successfully meet contractual obligations, this will be a condition of employment
