Responsibilities:
* Serves as a SOCCENT J2 Senior ISR Collection Manager for the USCENTCOM area of operations.
* Participates in the planning and directing ISR operations.
* Makes recommendations on operational matters which may be used to initiate management actions to commit organizational funds or resources.
* Briefs senior officials on complex issues of ISR collection capabilities/data to service within area of responsibilities, Identifies or validates ISR dissemination processes /system requirements that ensures a smooth integration of concepts within existing programs used.
* Maintains liaison activities and staff coordination with counterparts at CENTCOM and national intelligence organizations.
* Maintains the integrity and standardization of Intelligence Community (IC) integrated products by closely coordinating with other specialists ensuring the use of recommended collection methodologies, standards, and analytical approaches.
* Uses/modifies established methodology and contributes to collecting of ISR (broad-based and domain/discipline-agnostic) products; applications, capabilities and resources within AOR. Provides intelligence recommendations to higher graded specialists and staff on matters involving collection and operation development, articulation, advocacy, and strategy for developing AFSR airborne and related ground systems within their specific area of responsibility. Responsible for researching, developing, and submitting collection requirements at the operational level and for subordinate units.
* Utilizes multiple sensors from intelligence disciplines.
* Prepare briefs, information papers, and presentations as required utilizing Microsoft Office family of products (i.e. Outlook, PowerPoint, Word, Excel and Access).
* Develop and maintain an electronic resource, to include key points of contact, to be used for mission continuity that may be accessed by all stakeholders.

Required Qualifications:
* **Active TOP SECRET clearance with SCI Eligibility.**
* Minimum of a master's degree
* A minimum of 12 years of total intelligence experience in analysis, targeting, and/or ISR collection positions within the DoD or equivalent Government agencies.
* Nominees will have 5+ years of supporting Special Operations experience.
* 7+ years ISR experience or 5+ years of ISR CM experience.
* CENTCOM AOR operational experience in the past 5 years.
* Excellent written and verbal communication skills and experience preparing and presenting intelligence briefings to senior leaders.

- Demonstrated complex problem-solving knowledge and experience using relevant structured ISR techniques.
- Foundational qualifications and training obtained at US Military or Intelligence Community Intelligence Courses.
- Knowledge and familiarity of systems with IC CM systems, mission applications and communication capabilities.
- Proficient in utilizing current intelligence related automation, applications, tools, and databases to support analytical efforts and product development.
- Advanced Microsoft Office skills and proficiency using current analytic tools, databases and Intelligence and operational systems is required.
- Strong background and firsthand experience is required in Collection Management and/or Intelligence Reporting, including doctrine, policy, procedures, oversight, tactical, theater and national-level coordination. Retrieve, create, or edit Geospatial data in the form of raster or vector data to support product development and planning.

Supplemental Information:
Special Conditions:
- If offered employment, you will be required to submit to a background investigation.
- Employees performing sensitive requirements must be able to pass a drug test as a condition of employment and submit to random drug testing throughout the contract performance period as per FAR 252.223-7004, Drug Free Workforce. If your position requires drug testing to successfully meet contractual obligations, this will be a condition of employment.
