

Trident Technologies and
Consulting – Global, LLC

Open-Source Intelligence (OSINT) / Digital Reconnaissance (DR) Analyst

Job Title: Open-Source Intelligence (OSINT) / Digital Reconnaissance (DR) Analyst
Work Location: San Diego, CA
Position Classification: Full Time
Security Clearance: Current DoD Active Top-Secret Clearance with SCI Eligibility

www.t2cglobal.com

Overview

Trident Technologies and Consulting - Global, LLC (T2C-Global) is a Woman Owned Small Business (WOSB) and Certified Woman Owned Florida Business Enterprise specializing in providing innovative global defense services and solutions.

Responsibilities

The OSINT Analysts will work on a small intelligence fusion team that is responsible for the production of intelligence assessments in support of deployed NSW forces. In order to be effective, the Contractor Analysts must be skilled, experienced, and willing to work flexible or alternative hours as needed to complete the mission.

- Support MSC with comprehensive and integrated analysis of plans, concepts, capabilities, and threats in order to provide informed and accurate recommendations for the employment of NSW forces and capabilities in a dynamic and time-sensitive environment.
- Support both long term assessments and short-term analysis of developing and near real-time events that shape operations, actions, and other activities.
- Conduct research, both unclassified and classified, on various topics supporting ongoing and emerging operational scenarios and identify gaps in capabilities that can be addressed by new technology, capabilities, processes, and procedures.
- Provide assistance on short timeline responses to specific questions pertaining to policy and operational plans; analyze subject plans and concepts for areas of concern; research and analyze various pertinent policies, strategies, vulnerability assessments, threat and intelligence assessments, and inform planning efforts and new concept development.
- Work with identity providers, identity data analytics, and identity threat data providers.

Qualifications

Required certifications:

- **Current DoD Active Top-Secret Clearance with SCI Eligibility**
- Have 12 years of experience working within the intelligence community with a working knowledge/experience of the following areas:
 - Senior-level Briefing
 - Targeting
 - Human Source Network management
 - Airborne Intelligence, Surveillance, Reconnaissance (ISR) systems and intelligence exploitation
 - Collection Management
 - HOT-R Human Intelligence Online Tracking & Reporting

- Voltron analytical software tool
- Minimum of five years working with Special Operations
- Minimum of five years working as an OSINT/DR analyst working knowledge/experience of the following areas:
 - Data-mining software tools and related databases
 - Current commercial off-the-shelf (COTS) network- and link-analysis tools
 - Social media exploitation tools; browsers; data collection agents and tools
- Master-level experience working as an OSINT/DR analyst
- Master-level experience working with multiple intelligence disciplines (HUMINT, IMINT, GEOINT, SIGINT, OSINT, etc.) and a fundamental understanding of the data and tools these disciplines utilize
- Master-level ability to research; gather data; process, assemble and analyze facts; draw conclusions; effectively fuse OSINT results with other intelligence and databases; and develop solutions to intelligence-related problems involving OSINT and DR; extensive and current knowledge of commercial and government OSINT/DR tools and research methods;
- Master-level of acquiring, creating, and leveraging resources (e.g., tools and data) and integrating advanced technologies to overcome process barriers and resolve inefficiencies
- Master-level experience in supporting system specifications evaluations and test and evaluation of new or improved capabilities for predictive analysis, data mining, data correlation and display, data fusion, and processing algorithms to solve hard problems
- OSINT Analyst must be skilled and experienced in general administrative matters and be willing to work flexible or alternative hours as needed to complete the mission
- Must be able to provide advice and assist MSC personnel involved in providing mission support (either directly or indirectly) on matters related to the Contract. Coordinate with the MSC Director of Operations (and others as necessary) to optimize awareness and use of the Contract personnel's skills and capabilities
- Possess the ability to assist in the review, update, and drafting of relevant MSC standard operating procedures (SOPs), technical procedures, best practices, and other instructions as well as the quality and effectiveness of all source analysis data sources and hardware/software tools
