Geospatial Analytic Trainer
(CONTINGENT UPON CONTARACT AWARD)

Job Title:	**Geospatial Analytic Trainer**
Work Location:	**Virginia Beach, VA,**
Position Classification:	**Full Time**
Security Clearance:	**TOP SECRET clearance, SCI Eligible**

www.t2cglobal.com

Overview
Trident Technologies and Consulting - Global, LLC (T2C-Global) is a Woman Owned Small Business (WOSB) and Certified Woman Owned Florida Business Enterprise specializing in providing innovative global defense services and solutions.

Responsibilities
- The Analytic Trainer is to train personnel to conduct Full Motion Video (FMV) Processing, Exploitation and Dissemination (PED) from air, space, ground, and maritime Intelligence, Surveillance and Reconnaissance (ISR) assets. The Analytic Trainer will be expected to produce extremely detailed analytical products to build Patterns of Life (PoL) and target descriptions. Additionally, the Analytic Trainer will be conducting order of battle analysis, Activity Based Intelligence (ABI), Battle Damage Assessment (BDA), and employing traditional Imagery Intelligence (IMINT) tradecraft and the Analytic Trainer will also be expected to perform traditional PED on electro- optical, infrared, radar motion and still frame imagery.
- Additional tasks for the Analytic Trainer will be focused on Full Spectrum Geo-spatial Intelligence (GEOINT) and Terrain/Geospatial Analysis. The Analytic Trainer will focus on Analysis and PED of GEOINT Measurement and Signature Intelligence (MASINT) of Spectral, Radar and Infrared datasets. Production will include but will not be limited to specialized radar analysis, thermal analysis, terrain categorization, multi and hyper-spectral analysis. Geospatial analysts will primarily be focused on highly detailed terrain/geospatial analysis and production. Production will include but will not be limited to image rectification, terrain analysis and specialized map production. The Analytic Trainer will be expected to participate in the primary and secondary tasks of the contract as required.
- Conduct training on Tactical ISR Processing System and THOR system setup, use, network connection, troubleshooting and teardown.
- Instruct FMVPED analysis platform (Scan Eagle and Puma) and payload capabilities.
- Provide instruction on data ingestion, transport and storage.
- Provide instruction on all three phases of PED (Phase 1 -3) and the products required under each phase.
- Maintain course continuity and provide regular updates to the training curriculum and tests.
- Draft feedback on student participation and performance to NSWG-10 N2 Staff.
- In lieu of poor student performance, analytic trainer will report it to NSWG-10 N2Staff and provide recommendation to remediate or drop student from class.
- Adapt course curriculum to relevant Area of Operations/Target Set for class participants.
- Maintain regular cognizance of emerging FMV exploitation software and other new technologies relating to FMVPED and incorporate them into the course as applicable.

Qualifications
Required certifications:
- **Current DoD Active TOP SECRET / SCI Eligibility**
- Operate basic computer applications such as Microsoft Office.
- Possess strong demonstrated briefing skills.
- Must be capable of multi-tasking in a high stress, time sensitive environment.
- Previous experience in the SOF community is highly desirable.
- Possess operational and tactical level intelligence experience to include general experience in the fields of targeting, intelligence systems, and geospatial systems.
- Have proficiency in utilizing computer applications and intelligence related automation to support analytical efforts and product development. Candidates must perform at a highly proficient level on core IMINT analysis and FMV exploitation with recent, hands on experience.
- Must have good interpersonal skills and be able to effectively work, individually or as a member of a team, and take the lead on select tasks as required.
- A minimum of eight (8) years of hands-on GEOINT analytical experience within DOD or the Intelligence Community.
- Five (5) years of technical experience.
- At least two (2) years of experience within the past three years with GEOINT exploitation tools such as SOCET GXP and ArcGIS.
- At least two years of experience with GEOINT analysis, GEOINT production, intelligence architecture, intelligence databases, quality control, and training.
- Military personnel who have two years of hands-on FMV analysis experience within the SOF community automatically meet the minimum requirement.

Physical Demands
The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of the job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee is required to possess the fitness and conditioning required to perform ordnance-based maintenance and logistics support duties. Employees shall be physically capable of performing all maintenance and logistics duties including the ability to ascend and descend ladders; lift objects up to 86 pounds; be free of any abnormal fear of heights; stand for long periods of time; work outdoors in extreme hot and cold environments; work on waterborne platforms such as small boats; and work on small arms ranges and in an AA&E environment. Each employee meets these standards at time of employment, and these fitness standards will be sustained throughout their assignment to the contract. Each contractor employee will sign a Statement of Understanding acknowledging the above requirements to reach with hands and arms. The employee is frequently required to sit, stand and walk.

Disclaimer: The listed duties are not intended to serve as a comprehensive list of all duties performed by all employees in this classification, only a representative summary of primary duties and responsibilities. Incumbent(s) may not be required to perform all duties listed and may be required to perform additional position specific duties.

Special Conditions

- If offered employment, you will be required to submit to a background investigation.
- Employees performing sensitive requirements must be able to pass a drug test as a condition of employment and submit to random drug testing throughout the contract performance period as per FAR 252.223-7004, Drug Free Workforce. If your position requires drug testing to successfully meet contractual obligations, this will be a condition of employment

Equal Opportunity Employment Statement

T2C-Global is a Veteran friendly employer and provides equal employment opportunity (EEO) to all employees and applicants without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability status, genetic information, marital status, ancestry, protected veteran status, or any other characteristic protected by applicable federal, state, and local laws. Equal Opportunity for VEVRAA Protected Veterans. T2C-Global will not discriminate against employees and job applicants who inquire about, discuss or disclose compensation information.
